# Preface

The report that follows is a compilation and analysis of selected data reported by North Carolina public libraries for July 1, 1993, through June 30, 1994. The Federal-State Cooperative System report is generated from this data.

All data is derived from tables generated using the Public Library Statistical Database on the North Carolina Information Network. Public libraries entered their 1993-94 data using the Statistical Data Entry Form. The Statistical Data Entry form does not allow the input of any totals. (For example look at how TOTAL book volumes is derived. The figure **must** be reported broken down by adult and juvenile collections. If a library does not track these figures, they **may** have reported all their book volumes under either adult or juvenile volumes.)

Recorded in the tables are output measures, including some recommended by the Public Library Association. Output measures include circulation per capita, program attendance per capita, registration as percentage of population, and turnover rate. Formulas for determining these measures are shown in the footnotes of the tables.

The reported data is presented in eight tables, a timeline, and several graphs. Within the tables, libraries are grouped by type. (County, regional or municipal) Within each type, libraries are listed in descending order by service area population. This is done to facilitate comparisons with other libraries serving a similar size population.

Adult population figures (shown in the Operating Receipts table) are 1993 estimates from the State Data Center database. Juvenile population figures (shown in the Children's Services II table) are 1990 figures from the U.S. Bureau of the Census.

The Library Development Section always welcomes comments and suggestions. If you have suggestions about particular data elements, the tables, or this directory please contact any consultant in the Library Development Section.

These tables are available on-line on North Carolina Information Network. These tables are also available on diskette in either Quattro Pro version 5.0 or as a common delimited file. Additional copies of this publication as well as customized reports, presentation quality graphics, or other special tables are available on request.

# DIRECTORY

# OF

# NORTH CAROLINA PUBLIC LIBRARIES

This directory is divided into two sections, Counties and Regions. The County section is arranged alphabetically by name of county. The Regional section is arranged alphabetically by name of region, and then by county within each region. Libraries listed in ALL CAPS are headquarters libraries and those listed in lower case beneath are branches or municipal libraries affiliated with that county or regional system. Independent municipal libraries (not affiliated with a county or regional system) are listed under the counties where they are located.

**********

| | |
|---|---|
| Current total number of public libraries..... | 373 |
| Regional (49 counties) | 15 |
| County (includes municipal library serving county) | 50 |
| Independent municipal | 9 |
